

## THE FULLERTON HOTEL, THE ASIAN SPA

Previously Singapore's post office, The Fullerton is full of history and charm – stay in a Postmaster room for the warmth of old school colonial elegance. The Asian Spa has been completely renovated, with private spa suites and rooms beautifully designed following the elements of fire, water, metal, wood and earth. Spa treatments fall into the same categories – think Uplifting Body Massage in Earth, Energising Body Scrub in Fire, Calming Aroma Massage in Metal, Serenity Lulur Body Scrub in Wood and a Flower Bath in Water. À la carte treatments and spa packages include collagen facials, seaweed wraps and massages like Thai and hot stone.
